PRINTING INSTRUCTIONS
Tiana's Closet sewing patterns are designed to print on regular letter paper, which means all pages are sized to A4 so that you can be shown in metrics. It is recommended to use Adobe Acrobat Reader to open the pdf file and print it out. Please make sure that the page is the standard size (21 x 29.7cm) and not scaled. Please also make sure that the page is not rotated. Tiana's Closet pdf files are designed to be printed out on a home printer, unlike other pdf patterns which are designed to be printed out at a copy shop.
When opening the pattern, go to 'Print settings', in the tab 'Size & Handling' choose 'Custom scaling' and set it to 100%. Then in the tab 'Page Handling' choose 'Multiple pages per sheet' and choose the option that will allow you to see the page borders. Comparing print outside from the edge even (no choice 100% scale, so you will have to choose the option that allows you to see the borders) with the test square, you will know if you got the true size.
The test square is 4 inches horizontal (horizontal) and 4 inches (vertical).
Always print the first page of the file and measure to avoid waste of paper.
Tiana's Closet patterns are designed to be printed out on letter paper (21 x 29.7cm). Note the margins according to their dimensions, for example, page 1 is 1.5cm, page 2 is 2.5cm and page 3 is 1.5cm. Please make sure that the margins are set to 0 and that the page is set to show the pages line up.
Tiana's Closet patterns are designed to be printed out on letter paper.
Tiana's Closet sewing patterns are available on Etsy, Gumroad, Craftsy, Craftsuprise, Craftsy website: https://tianaclosetpatterns.craftsy.com/ or Tiana's Closet website: https://tianaclosetpatterns.com/
