Printing instruction:

- Patterns are made in layered PDF format, where all sizes are saved in one file and can be shown or hidden. In order to choose the desired size, go to Layers tab of your PDF reader, uncheck all boxes except for the desired size(s) and the box Print for all sizes.
- When printing the pattern, go to Print settings, in the tab Scale choose Custom scale: 100% (or Actual size) to print true to size. Note: some computers print smaller than true size even when you choose 100%, so you will have to adjust the scale to a little larger than 100% and measure the test square until you get the true size.
- The test square is 10 centimeters (horizontally) and 4 inches (vertically).
- Always print the first page of the file and measure first to avoid waste of paper.
- After printing, cut the pages along the lines with scissors icon and align and tape the pages to their sequences. For example, 1A is taped to 1B in a row, and 1A is taped to 2A in a column.
