PRINTING INSTRUCTIONS

Tiana's Closet sewing patterns are made in Unisex PDF format, which means all sizes are listed on one file and you can print as many as you need. It is recommended to use Adobe Acrobat Reader (32-bit version on Mac OS, 64-bit on Windows) or Foxit PDF Reader (64-bit on Windows) to open the files. To print the patterns, you need to choose the desired sizes on the sizes table of the PDF reader. Uncheck all boxes except for the desired size(s) and the box for all sizes.

When printing the patterns, go to their settings in the file menu (choose Custom scales, 100% for scaling). Home or Actual Size to print them to size. Note: some items have to adjust the scale to a size larger than 100% and measure the test square before you cut the test size.

The test square is 10 centimeters (3.937 inches) and 4 inches (10.16 cm).

Always cut the fold edge of the file and measure to avoid scale of paper.

After printing the patterns, cut the paper along the lines with sharp scissors, align and label the pieces according to their requirements. For example, page 1A is labeled to indicate that you can change it in a size to range 24 to 30 centimeters. Please see the original pattern to find the right size.

You can find photo instruction for printing sewing patterns on Tiana's Closet website: <https://www.tianascloset.com/news/2019/06/20/printing-sewing-patterns/>
