PRINTING INSTRUCTIONS

Tiana's Closet sewing patterns are made in standard US format, which means all sizes are listed in the US and can be shown in inches or centimeters. It is recommended to use Adobe Acrobat Reader (available on Mac OS, but on Windows go to <https://www.adobe.com/acrobat>) to view the patterns in order to choose the correct units and to zoom in/out to see the details.

When printing the pattern, go to Print settings. In the top right corner choose Custom scale 100%. If you choose to print in inches, the top right corner will show the correct units. Some computers print smaller than the size when you choose 100% scale, so you will have to adjust the scale to a little larger than 100% and measure the test square to get the 100% size.

The test square is 10 centimeters (3.937 inches) and 4 inches (10.16 cm).

Always print the full page of the file and measure to avoid waste of paper.

After printing the pattern, cut the paper along the lines with a sharp utility knife and keep the pieces according to their respective sizes. Please refer to the page 1 of the pattern and page 2 of the pattern for more information. It is important to read the page 1 of the pattern before you start to cut the pieces.
