PRINTING INSTRUCTIONS

Tiana's Closet sewing patterns are made in standard US format, which means all sizes are listed in one file and can be shown or hidden. It is recommended to use Adobe Acrobat Reader (paid version or free CC) to view or measure of PDF files. Adobe files work on Windows only to avoid the file corrupts. In order to check the pattern sizes, go to 'Tools' of your PDF reader, choose 'All content except for the content area' and 'Show all content'.

When printing the pattern, go to 'Print' settings. In the 'Page' section, choose 'Custom' or 'Range' for 'Page Range' and 'Actual Size' for 'Page Size'. To save some paper, you can choose 'Print range from the line when you choose '100%' scale, so you will only print the page you need. If you choose '100%' and 'Print range from the line when you get the true size'.

The pattern is in centimeters (horizontal) and inches (vertical).

Always print the first page of the file and measure to avoid waste of paper.

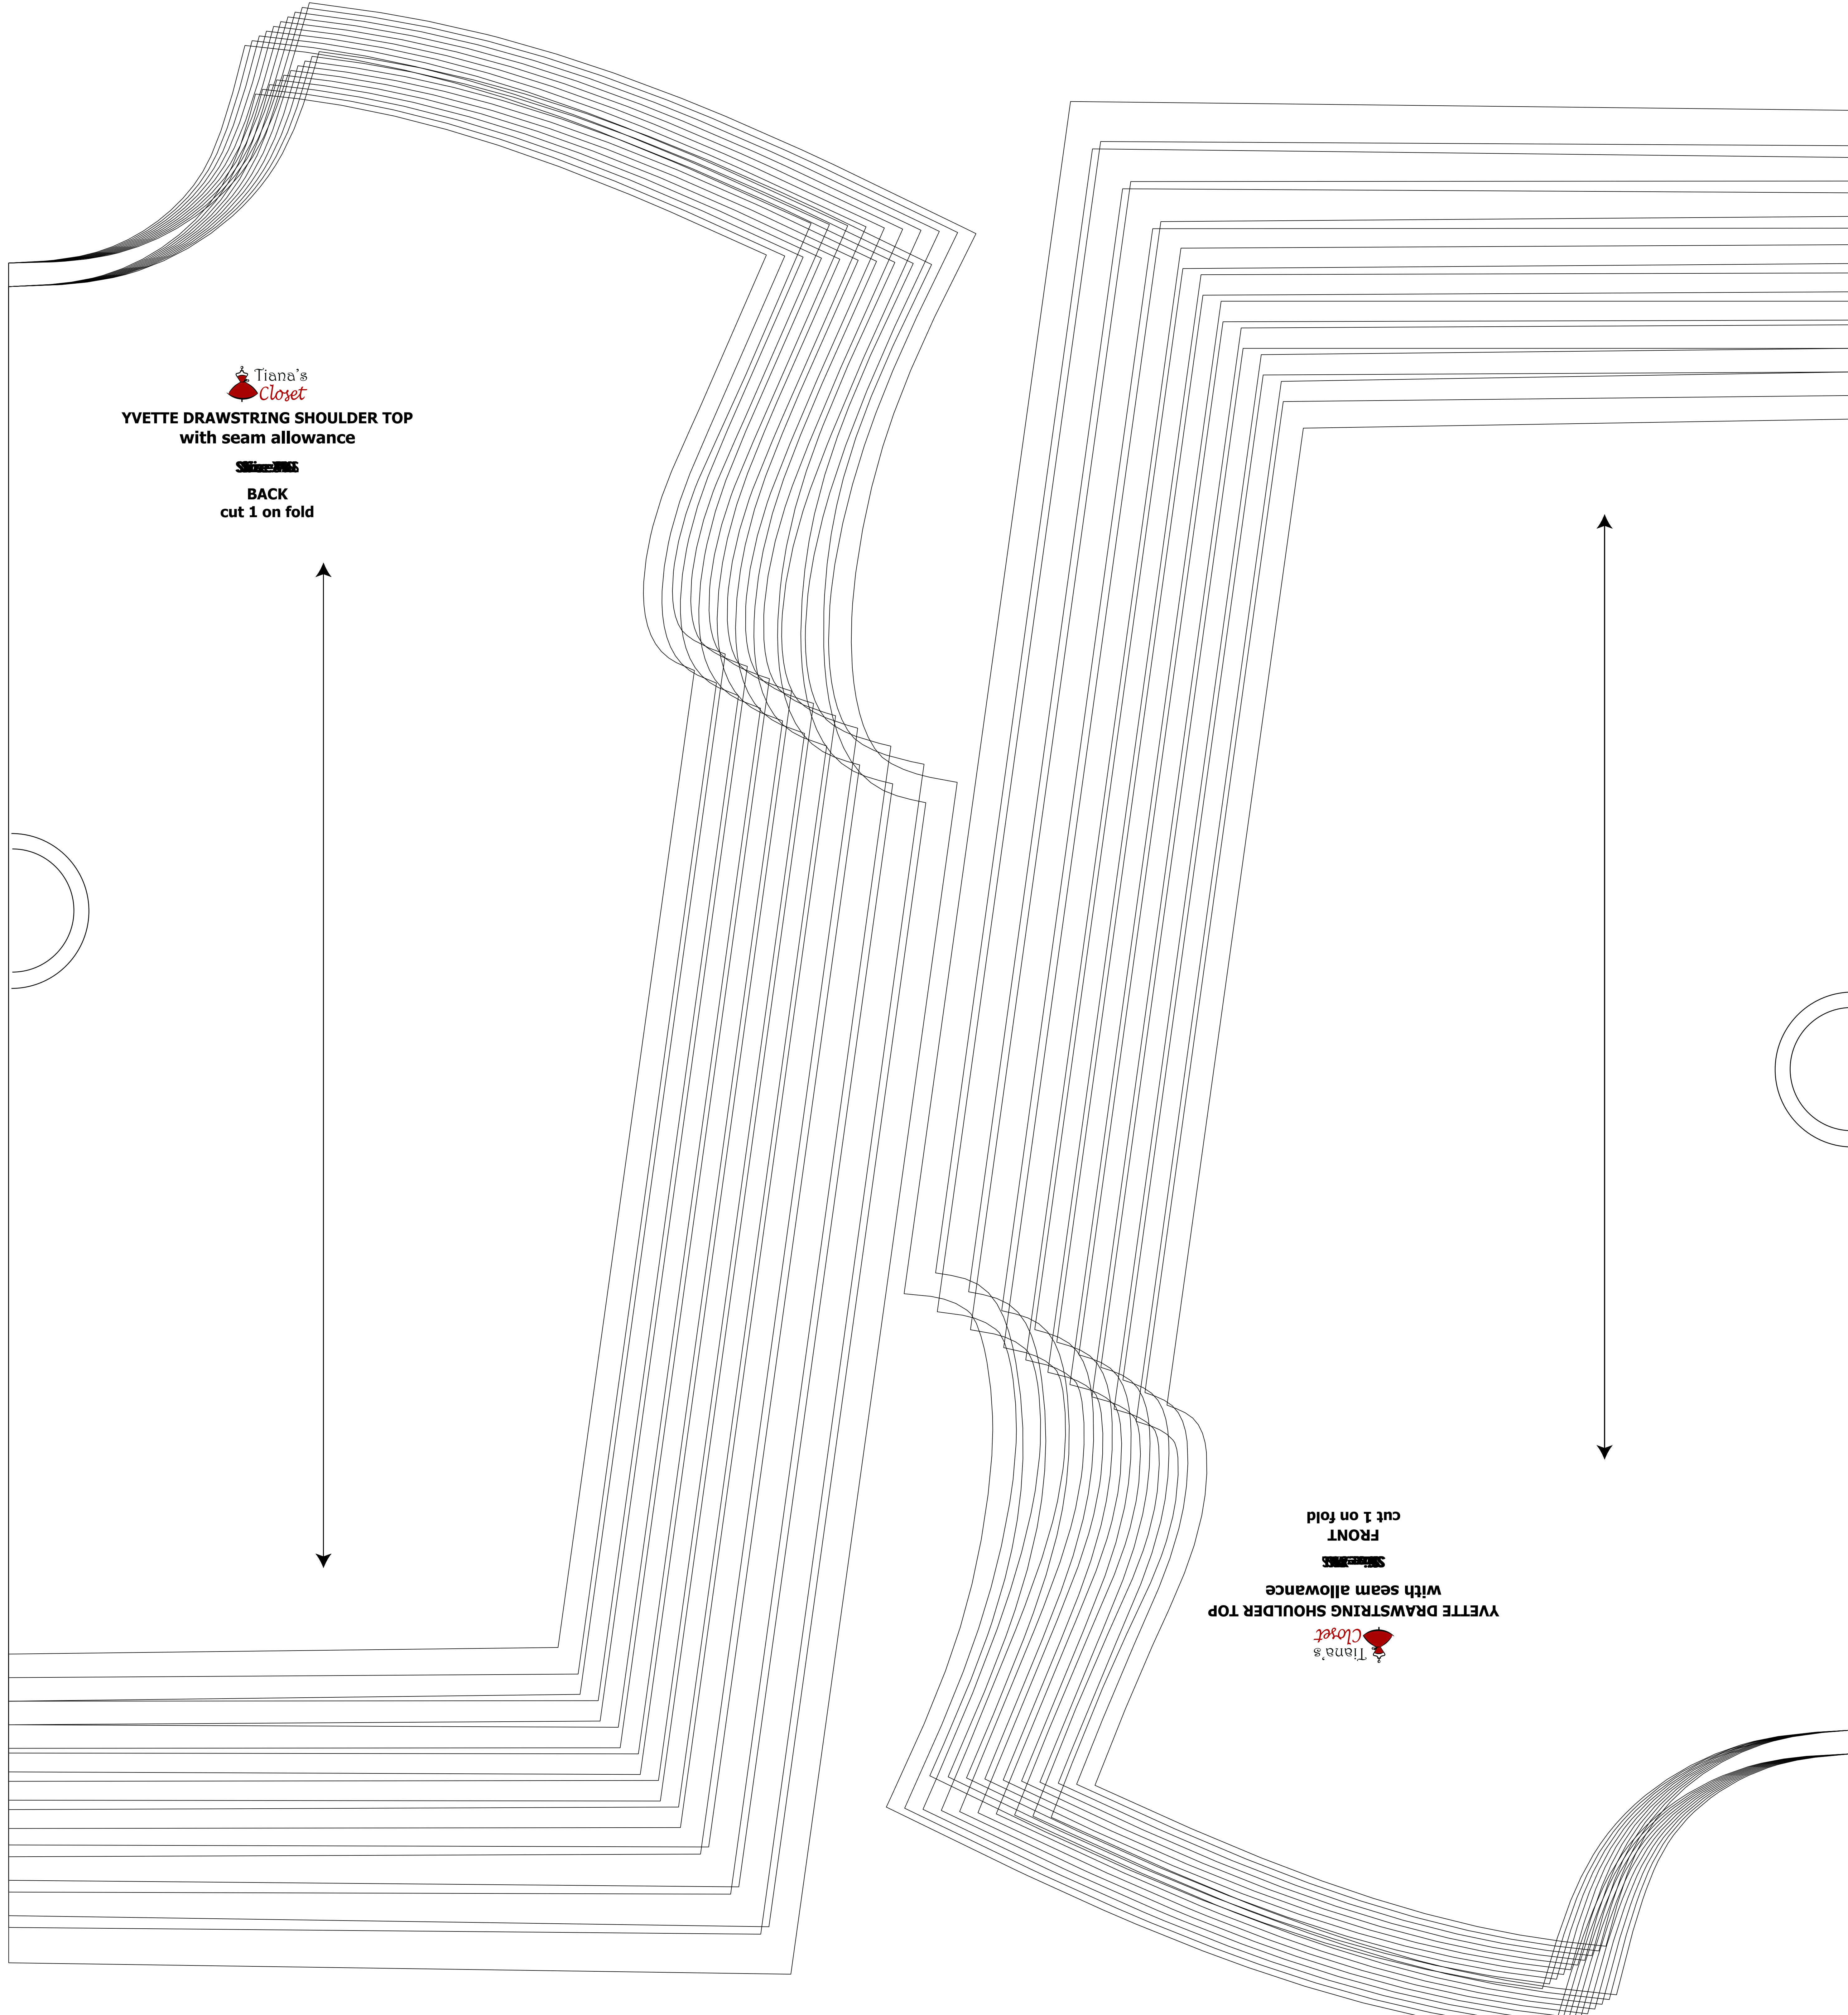

After printing the pattern, cut the paper along the lines with scissors, edge and keep the paper according to the instructions for example page 1A is taped to page 1B in row and page 1B is taped to page 1A in column. Please see the page below to see how the paper line is.
