PRINTING INSTRUCTIONS

Tiana's Closet sewing patterns are made in standard PDF format, which means all files are saved in one file and can be shown or hidden. It is recommended to use Adobe Acrobat Reader (paid version or free CC) but in Windows or Free PDF Reader (free works on Windows only) to avoid the file corrupts. In order to check the pattern sizes, go to 'Tools' tab of your PDF reader, choose all cover pages for the pattern and go to the list of sizes.

When printing the pattern, go to Print settings. In the top corner choose Custom scale: 100%. For printing more in Actual Size to print the file with some corrections and/or for the size even when you choose 100% scale, so you will have to adjust the page to a size larger than 100% and increase the file size. If you get the file size:

- The file size is too common (horizontal and 4 inches vertical).
- Always print the full page of the file and measure to avoid waste of paper.
- After printing the pattern, cut the paper along the lines with scissors, edge and keep the paper according to the instructions. For example, page 1A is tagged by page 1B in row and page 1A is tagged by page 1B in column. Please see the page below to see how the page is cut.
