**PRINTING INSTRUCTIONS**

Tiana's Closet sewing patterns are made in standard PDF format, which means all lines are saved in one file and can be shown or hidden. It is recommended to use Adobe Acrobat Reader (available on Mac, PC, and on Windows) or Foxit Reader (free works on Windows only) to avoid the file corrupting. In order to check the document status, go to 'Tools' tab of your PDF viewer, 'properties' will cover needed for the correct display and the file will not be lost.

When printing the pattern, go to 'Print' settings. In the 'job' section choose Custom (not '100%' or 'fitting' mode) or 'Actual Size' to print. You can also choose 'copies' and 'pages' from the list when you choose '100%' mode. To cut, you will have to select the page to be larger than '100%' and increase the 'fit' space until you get the full size.

- The pattern is to be printed horizontally and 4 inches wide.
- Always print the full page of the file and measure to avoid waste of paper.
- After printing the pattern, cut the paper along the lines with scissors, sharp and keep the paper according to the instructions for example page 1A is taped to page 1B in the row and page. It is taped to page 2A in a column. Please see the page below to see how the page line is.
- You can find photo instruction for printing sewing patterns on Tiana's Closet website: <https://www.tianascloset.com/2018/05/15/how-to-print-sewing-patterns/>
