Height	160	165	170	175	180	185	190	195	200	205

PRINTING INSTRUCTIONS

Tiana's Closet sewing patterns are made in standard PDF format, which means all files are saved in one file and can be shown or hidden. It is recommended to use Adobe Acrobat Reader (paid version or free CC) to view or download all PDF files. Adobe files work on Windows only to avoid the file corrupts. In order to check the document status, go to 'Tools' tab of your PDF reader, choose 'All content needed' for the content display and the file will be ok.

When printing the pattern, go to 'Print' settings, in the top bar choose Custom scale: 100% for printing. Please do not choose 'Actual Size' to print. To save some computer print resource, please turn the line when you choose 100% scale, so you will have to adjust the scale to a little larger than 100% and measure the test square if you get the true size.

- The test square is to determine if you printed and if inches/centimeters.
- Always print the first page of the file and measure to avoid waste of paper.
- After printing the pattern, cut the paper along the lines with sharp scissors, align and tape the paper according to the sequence for example, page 1A is taped to page 1B in row and page 1B is taped to page 1A in a column. Please see the page below to see how the paper line up.
- You can find photo instruction for printing sewing patterns on Tiana's Closet website: <https://www.tianascloset.com/2020/05/10/how-to-print-sewing-patterns/>
