PRINTING INSTRUCTIONS

- Tiana's Closet sewing patterns are made in standard US format, which means all sizes are listed in inches. The grid can be shown or hidden. It is recommended to use Adobe Acrobat Reader (latest version) or Adobe DC. They are intended for use on a computer. They work on Windows only to read the file correctly. In order to choose the correct scale, go to the top of your PDF viewer, choose the correct scale for the document and then click on the icon.
- When printing the patterns, go to their settings. In the tab Scale choose Custom.
- When printing the patterns, make sure the scale is set to 100%. If you choose a different scale, the patterns will be distorted. Make sure you print the patterns at the correct scale. If you want to print the patterns at a different scale, you will have to adjust the scale in the printer settings. If you choose a scale other than 100%, you will have to adjust the scale in the printer settings.
- The first square is 10 centimeters (4 inches) wide and 10 centimeters (4 inches) high.
- Always print the first page of the file and measure to avoid waste of paper.
- After printing the pattern, cut the pages along the lines with scissors, along and back the pages according to their sequence. For example, page 1A is paper 1B to page 1B in it is the first page. 1A is paper to page 2A in it is column. Please see the image below to see how the page is cut.
- You can find photo instruction for printing sewing patterns on Tiana's Closet website: <https://www.tianascloset.com/2020/05/10/how-to-print-sewing-patterns/>
