Hip	centimeter	90	92	96	100	104	108	114	120	126

**PRINTING INSTRUCTIONS**

Tiana's Closet sewing patterns are made in unisex US format, which means all sizes are listed in one file and can be shown in inches. It is recommended to use a ruler to measure your body measurements. Do not use a tape measure or a measuring tape. If you are unsure of your measurements, please refer to the size chart. If you are unsure of your measurements, please refer to the size chart. If you are unsure of your measurements, please refer to the size chart.

When printing the pattern, go to their settings, in the top right corner choose Custom Scale: 100% for scaling. Never use Actual Size to print. If you have some computer print errors that are not shown when you choose 100% scale, so you will have to adjust the scale to 100% and measure the test square until you get the true size.

The test square is 10 centimeters (horizontally) and 4 inches (vertically).

Always print the test page of the file and measure to avoid waste of paper.

When printing the pattern, cut the edges along the line with scissors. Fold and tape the pages according to their sequence. For example, page 1A is taped to page 1B in the next page. This is taped to page 1B in the next page and the image below to see how the pages fit up.
