PRINTING INSTRUCTIONS

Tiana's Closet sewing patterns are made in LaTeX PDF format, which means all files are saved in one file and can be opened on Windows. It is recommended to use Adobe Acrobat Reader (latest version on Mac OS, free on Windows) or Foxit PDF Reader (free, which can be used on Linux) to open the patterns. In order to choose the correct sizes, go to lower tab of your PDF reader, uncheck all boxes except for the desired sizes and the size that you are using.

When printing the patterns, go to Print settings in the top Scale choose Custom scales: 100% for printing. Make an actual test to print first to see. After some checks to print the rest of the pieces when you choose 100% scale. Do you not have to cut the scale to a size larger than 100% and measure the top edge and you will get the size.

The test square is 10 centimeters (approximately) and 4 inches (approximately).

Always print the first page of the file and measure to avoid waste of paper.

After printing the pattern, cut the paper along the lines with scissors. After cut tape the paper according to their sequences. For example page 1A is taped to page 1B in the back, and page 1A is taped to page 2A in the front. Please see the image below to see how the pattern fits.
