PRINTING INSTRUCTIONS

Tiana's Closet sewing patterns are made in standard PDF format, which means all files are saved in one file and can be shown or hidden. It is recommended to use Adobe Acrobat Reader (paid version or free CC) to view or download of PDF Reader (free) works on Windows only to avoid the file corrupts. In order to check the pattern sizes, go to 'Tools' tab of your PDF reader, choose all cover needed for the pattern and go to 'Print' tab.

When printing the pattern, go to 'Print' settings. In the 'Page Scale' choose 'Custom' option. 100% is always better. Actual Size is good, but it is not ideal. Some computers print smaller than the size when you choose 100% scale, so you will have to adjust the scale to a little larger than 100% and measure the test square 4x4 inch you get the 4x4 inch.

The pattern pieces are centered horizontally and 4 inches vertically.

Always print the first page of the file and measure to avoid waste of paper.

After printing the pattern, cut the paper along the lines with scissors, align and tape the paper according to the sequence for example page 1A is taped to page 1B in row and page. This paper is page 1A in a column. Please see the page below to see how the paper line up.
