<b>Hip</b>	34	36	38	40	42	44	46	48	50

**PRINTING INSTRUCTIONS**

Tiana's Closet sewing patterns are made in Uncoated PDF format, which means all lines are solid to one file and can be printed on standard paper. It is recommended to use Adobe Acrobat Reader (64-bit version on Mac OS, free on Windows) or Full PDF Reader (free, with an optional trial) to avoid any printing issues. In order to ensure the correct scale, go to the file of the PDF reader and check the default settings for the default size and the font size for all text.

When printing the pattern, go to the settings, in the file scale choose Custom scale 100% for scaling, None or Actual Size to print the size, None, some computers and models for the printer may have a resolution of 300 dots per inch, which will have to adjust the scale to a little larger than 100% and measure the test square before you print the pattern.

The test square is 10 centimeters (four inches) and 4 inches (over 100%).

Always print the first page of the file and measure to correct scale if you can.

After printing the pattern, cut the paper along the lines with scissors, clip and then the paper according to the instructions. For example, page 1 is a sheet for page 18 in a size, and page 1 is a sheet for page 24 in a column. Please see the page number to see the page for the size.

You can find photo instruction for printing sewing patterns on Tiana's Closet website: <https://www.tianascloset.com/learn-how-to-print-sewing-patterns>
