PRINTING INSTRUCTIONS

Tiana's Closet sewing patterns are made in US/UK/CA format, which means all measurements are in inches. For more information, please refer to our website: www.tianascloset.com. We recommend to use Adobe Acrobat Reader (latest version) on Mac, OS, Win, or Windows or Font PDF Reader (free, works on Windows) to view the file correctly in order to prevent the printed results go to wrong top of your PDF reader. UNCHECK all boxes except for the selected pages and the last page for all files.

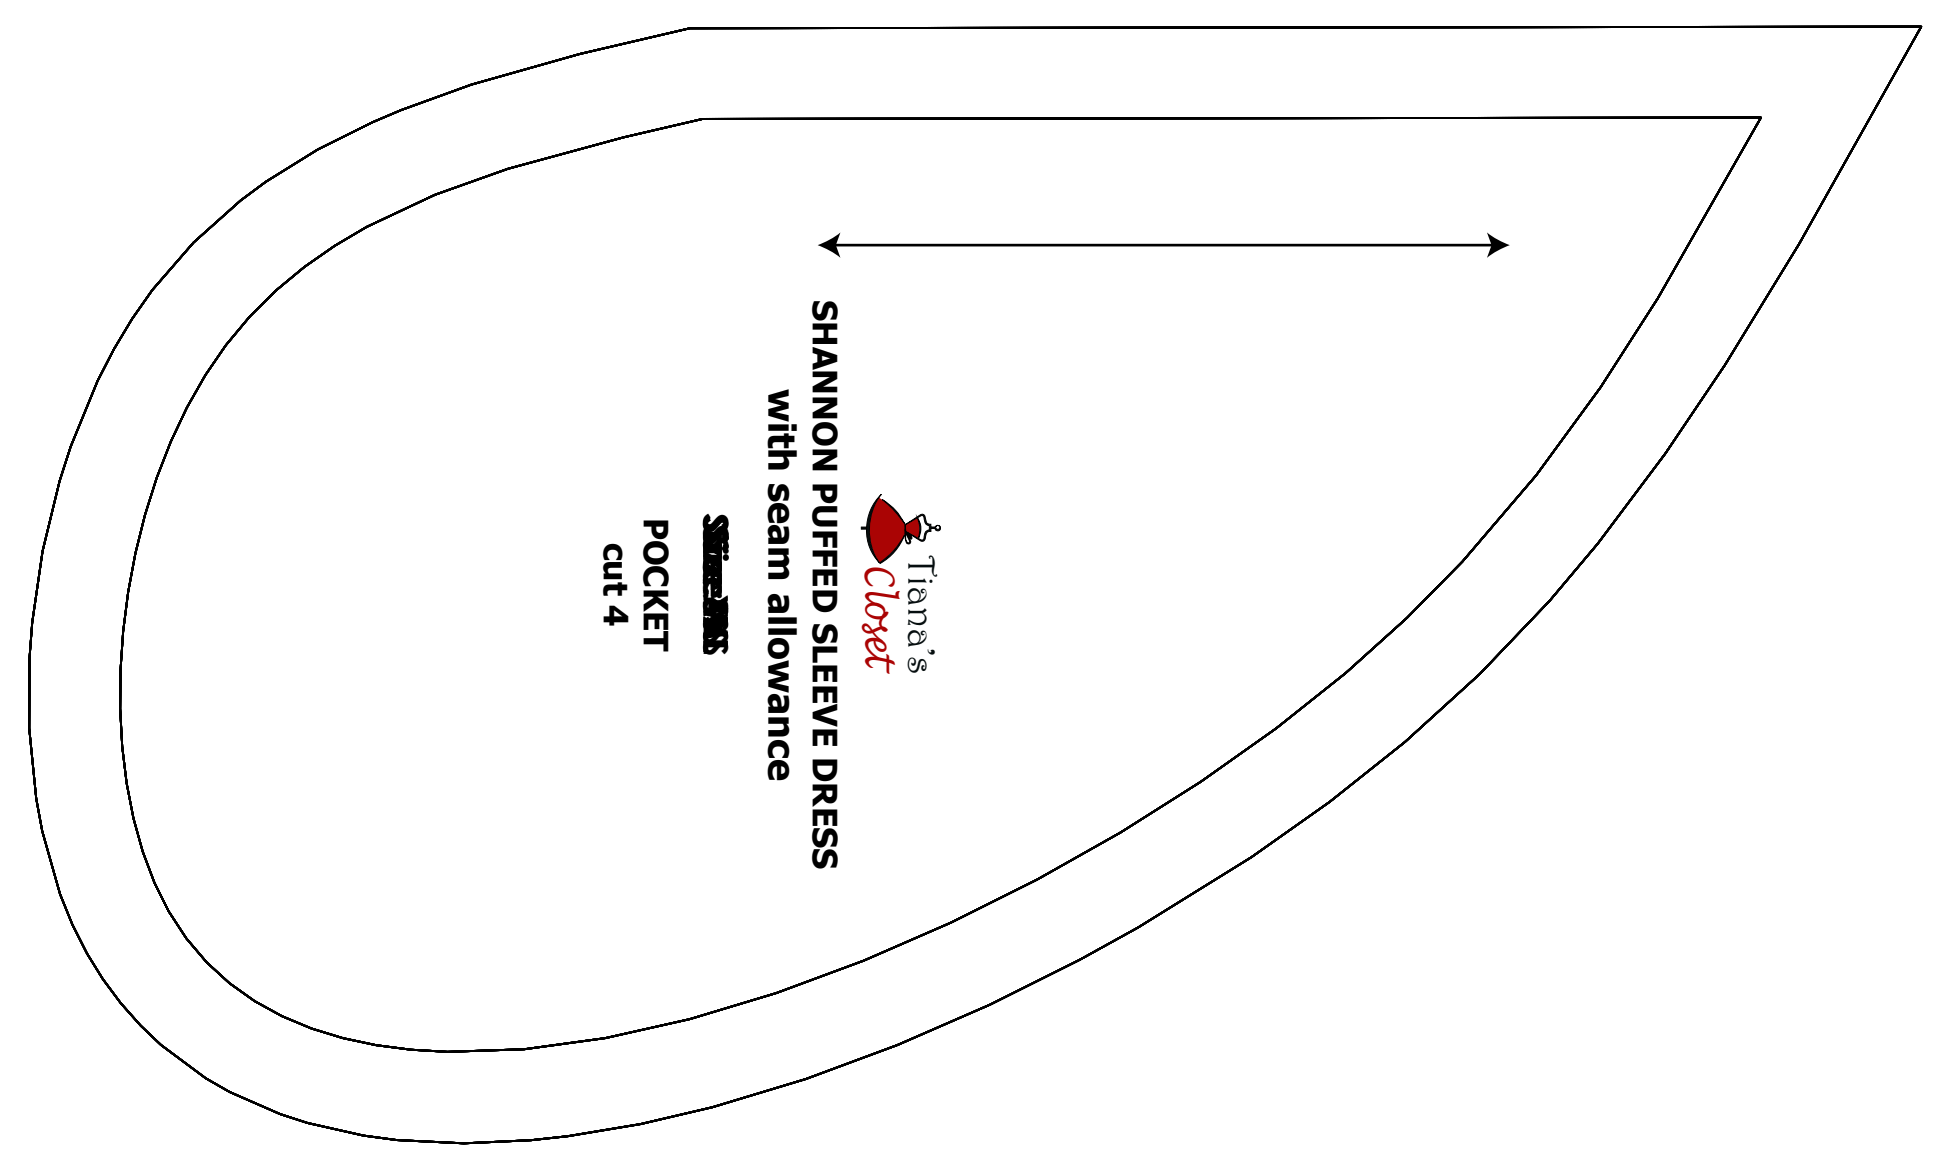

- When using the pattern, go to Print settings, in the top right corner choose Custom Scale: 100% for scaling. Some of Actual Size, to print that is size. Note: some computers print smaller than the size even when you choose 100% scale, so you will have to adjust the scale to a little larger than 100% and increase the test square until it gets the size.
- The test square is 10 centimeters (horizontally) and 4 inches (vertically).
- Always print the first page of the file and measure to avoid waste of paper.
- After printing the pattern, cut the paper along the lines with sharp scissors and fold the paper according to the sequence. For example, page 1A is folded to page 8 in view, and page 1A is folded to page 6A in view. Please see the image below to get the sequence.
