PRINTING INSTRUCTIONS

Tiana's Closet sewing patterns are made in standard PDF format, which means all files are saved in one file and can be shown or hidden. It is recommended to use Adobe Acrobat Reader (paid version or free CC) in the resolution of Full PDF Reader (free works on Windows only) to avoid the file corrupts. In order to check the pattern sizes, go to home top of your PDF reader, choose all cover needed for the pattern and print the entire set of files.

When printing the pattern, go to Print settings, in the top right corner choose Custom print (not for printing more than one page) and make sure the printer settings are correct. If you are printing more than one page, you will need to check the page size in the printer settings and make sure the paper size is 11x17 or the full size.

The pattern is in centimeters (horizontal) and inches (vertical).

Always print the first page of the file and measure to avoid waste of paper.

After printing the pattern, cut the paper along the lines with scissors, ruler and paper trimmer according to the instructions for example page 14 is taped to page 15 in the same edge.
