**PRINTING INSTRUCTIONS**

Tiana's Closet sewing patterns are made in standard US sizes, which means all sizes are listed in one file and can be shown or hidden. It is recommended to use Adobe Acrobat Reader (not online) on Mac OS, but in Windows or Linux PDF Reader (free works on Windows) to avoid the file corruption. In order to choose the correct size, go to 'Layers' of your PDF reader, uncheck all other layers for the correct size and then hit the 'OK' button.

When printing the pattern, go to 'Print' settings, in the 'Page Scope' choose 'Custom range' (000 to 000) to print the actual size in your file. To save some paper, you can choose 'print range from the line when you choose 100% scale, so you will print the actual size in a file larger than 100% and measure the file square 100% you get the true size.

The pattern is 10 centimeters (3.937 inches) wide and 4 inches (10.16 cm) high.

Always print the first page of the file and measure to avoid waste of paper.

After printing the pattern, cut the paper along the lines with sharp scissors, and keep the paper according to the instructions for assembly. If it is bigger than 11 x 17 inches, you can print it in two pages. It is better to print it in two pages to see how the pattern fits.

You can find photo instruction for printing sewing patterns on Tiana's Closet website: <https://www.tianascloset.com/2018/05/01/how-to-print-sewing-patterns/>
